

APS Safety Whip LED Light Head

AL8 Series

Description

Combined with the APS heavy duty mesh reflective X flags the LED light head mounted on a 5 – 12 ft safety whip provides high night and day visibility for smaller support vehicles. The LED Light Head base are designed to suit a BA15s / 1156 lamp socket.

The AL8 Series are a economy option with 8 LED's per light head. They are available in either steady on (AL8C) or flashing (AL8F) modes.
