

Slim LED Bar 20"

8,820 Lumens | 20" length | 10-30V DC | IP69K | 49W | ECE R10, R112

Description

This light bar is a high-quality lighting solution for off-road vehicle drivers looking to improve their visibility in the darkest environments. With exceptional power, superior build quality, operating versatility, easy installation and compact size, this headlight is the ideal choice for demanding drivers.

Features and Benefits

- With 49W, this LED light bar offers a theoretical brightness of 8,820 eLumens for enhanced visibility in the darkest environments.
- Offers a long-range beam with a color temperature of 5700K. In addition, this light pattern is a combo beam (spot + driving) for enhanced visibility.
- Made from high-quality materials, including an aluminium housing, polycarbonate lens and stainless steel mounting brackets.
- CE, UKCA, RoHs, IP68, IP69K, ECE R10 and R112 approved.
- Features a DT connector and bare-wire cable for universal installation.
- Compact LED light bar measures just 20 inches in length, making it easy to install on your all terrain vehicle or 4x4.

Applications

On and off-road 4WDs, 4x4, light vehicles (LVs), pick-up trucks, road service, SUV, trucks and fleets, vans and chassis cabs.

Tech Specs

Product Type	Work / warning light
Source	LED
Lumens	8,820 eLumens
Voltage	10-30V DC
Consumption	49W
Colour Temp	5700K
Beam Pattern	Spot + Driving
IP Protection	IP69K
Certifications	ECE R10, ECE R112
Internal Specs	Aluminum circuit board, Support in 304 stainless steel
Lens Material	Polycarbonate
Housing Material	Aluminium
Housing Colour	Black
Connector	DT 2 pin, Wiring harness, 300mm cable
Mounting	Assembly with universal bracket kit

Beam pattern

Wiring Colour Scheme

Red	high beam
Green	amber position
Yellow	amber warning
White	white position
Black	ground
