

# LW400 Series LED Linear Walkway Light

### Description

The LW400 Series LED linear walkway light is designed for the walkways of large-scale port cranes, conveyor systems and power stations. Outputting an impressive 2200 Lumens from only 20W, it features a one-for-one replacement for 70W HID lights. When used with the flat (bulkhead) mount, this light can be used as an LED replacement of fluorescent and bulkhead lighting, whilst the pole (spigot) mount can be used as an LED replacement for conveyor and pathway lighting. The LW400 is also suitable as an auxiliary light that can be affected by severe weather conditions.

### Features

- Industrial-grade LED chips and driver
- One-for-one replacement for 70W HID fixtures
- Tempered glass effective against aging and colour-changing
- IP65 fixture, waterproof & shock resistant
- Wide 140° optical lens provides even light distribution
- Certificates: CE, RCM (APS Lighting & Safety - E1496)
