

# Preco LED4200 Series

## SAE Class I LED

### Description

The Preco 4200 strobe beacons have been updated! The Preco 4200 series has been a common sight on service vehicles, mining sites, construction sites, and agricultural machinery. Known for its quality build and great performance, Preco has incorporated all the features users have come to depend on while updating the series to the latest technology.. Introducing the LED4200 Series. Offering SAE Class I light output, improving the brightness compared to the previous version, which expands the applications where this beacon can be utilized. Users now have 11 flash patterns to choose from including Double and Quad flash. With LED technology you do not have to worry about flash bulbs failing and the downtime associated with maintenance. The LED4200 offers a long maintenance-free life, has a lower amp draw, while providing more features! Whether you are at construction site or on the highway, the LED4200 series are dependable quality-built beacons that will help keep you safe by insuring that you are seen!
